***The Dallas Morning News*** purchased **one (1) Quipp Packman Packaging System** in November.

The unit will be installed in December 2004 and will be available to be seen in operation to all customers who attend the **NEXPO tour in Dallas in March 2005**.

***The Dallas Morning News*** has been a Quipp satisfied customer for many years and has **over 40 Quipp Stackers** in their Plano facility.

**Quipp sells a large mailroom system to the *Newspaper Agency Corporation***

The ***Newspaper Agency Corporation*** purchased 8 Quipp Model 500 W Stackers, 10 Quipp Viper Bottomwrappers and extensive Quipp floor equipment.

The equipment will be installed in 2005 in their new facility, which is currently being built in Salt Lake City, UT.

**Quipp PACKMAN Packaging System** - Suitable for both ROP and Insert applications, the Quipp Packman is a unique combination of a top-of-the-line heavy duty stacker, a 3/4 wrapper, an ink jet printer and a mobile strapping module adaptable to either left or right bundle delivery.

Since the Quipp Packman is mobile and based on existing stacker configurations, it is adaptable to most existing stacker locations ... minimal or no relocation of existing peripheral equipment is needed. Because the Quipp Packman is based entirely on familiar and proven technology, both operator and maintenance personnel will immediately be comfortable with its operation and care.
