

Quipp introduces  
PACKMAN Packaging  
System

**Stack, wrap, print and strap  
in one fast reliable operation**

The Quipp PACKMAN Packaging System is a combination of a top-of-the-line heavy duty stacker, a three quarter wrapper, an ink jet printer and a mobile strapping module adaptable to either left or right bundle delivery, suitable for both ROP and Insert applications.

- The Quipp PACKMAN can be used in both press and insert applications and can deliver up to 40 bundles per minute.
- The Quipp PACKMAN is portable and can be easily moved to different stacker positions.
- Proven technology used for many years in the industry.
- Operator and maintenance personnel are already familiar with this technology.
- The Quipp "Vision-Pro" Count Sensor is a new, highly accurate sensing concept.
- The Quipp PACKMAN can produce ¾ wrapped, ink jet text messages on the bundle and a single strap of up to 40 bundles per minute.
- The high resolution ink jet printer built on hp technology will reliably print high quality text messages on the ¾ wrap.
- Quipp PACKMAN'S innovative Strapping module is detachable from the main frame and is easily repositioned.
